Data Analyst with over two years of experience supporting process operations through data-driven decision-making and performance analysis. Skilled in SQL, Excel, and Power BI, with a strong foundation in statistics and data visualization. Seeking to leverage analytical skills and process industry expertise to deliver actionable insights that improve operational efficiency and business performance.

Professional Experience

Warri Refinery and Petrochemical Company Limited Process Operations Intern

01/19 - 12/19

Gained hands-on exposure to refinery process operations and participated in key operational and data-driven activities during plant production cycles.

- Supported day-to-day refinery operations by monitoring process parameters and assisting with operational performance analysis.
- Collected, interpreted, and reported process data to support safe and efficient plant operations.
- Assisted in monitoring equipment performance and identifying operational deviations for timely corrective action.
- Worked with cross-functional teams to ensure compliance with operational procedures and safety standards.
- Contributed to process optimization activities by analyzing operating data and supporting continuous improvement initiatives.

Warri Refinery and Petrochemical Company Field Operation Intern

09/17 - 12/17

Participated in the annual physical stocktaking (PST) exercise as part of a structured inventory verification and reconciliation program during industrial training.

- Conducted physical inventory counts and recorded stock data.
- Reconciled system records with physical stock to identify discrepancies.
- Assisted in validating and updating inventory data for reporting accuracy.
- Supported operational teams during stock audits and data verification exercises.

Education

Petroleum Training Institute Higher National Diploma / Petroleum and Natural Gas Processing - Upper Credit

2021

Key Skills

- SQL
- Microsoft Excel (Pivot Tables, XLOOKUP, Power Query)
- Power BI (DAX, Data Modeling, Interactive Dashboards)
- GitHub (Basic)
- KPI Reporting
- Statistical Analysis
- Communication
- Team Collaboration

Projects

Customer Sales Analysis (SQL & Excel Visualization)

- Wrote SQL queries to analyze customer behavior, revenue trends, top customers, and key performance indicators. Also used Excel for visual presentation of insights.

Product Performance Analysis (SQL & Excel Visualization)

- Wrote SQL queries to analyze product categories, profitability, inventory trends, and key business metrics. Also used Excel for visual presentation of insights.

Sales Dashboard (Power BI)

- Built an interactive Power BI dashboard to visualize sales performance, profit trends, regional distribution, and product-level KPIs for business reporting and insights.
